

Join us, to Make New Friends in Europe!

If you:

- Are between 20-30 years old?
- Are ambitious to broaden your view on this changing world?
- Usually speak in terms of challenges and not in terms of mistakes?
- Embrace sustainable progress?
- Are not shy to make new friends?

Then join us!

Make New Friends in Europe is a program set up for young Europeans to encourage understanding, knowledge, and friendship across borders. It is a once-in-a-lifetime opportunity for you to explore European hot topics and to learn how other young Europeans think about this!

With a group of between 15-30 participants you will (re-)discover European cities and explore topics such as Refugees, Social Security and Education, Healthcare, Climate and Environment, Foreign policies, Democratic values, Cross-border cooperation, EU institutes, Technology, Economics and Culture. You will meet recognized experts and key note speakers on these matters and you will be encouraged to discuss and develop your own viewpoints.

Even if you have other interests this program will give you a fantastic opportunity, as you will help to shape and develop the +/- 12 month program built around monthly meetings, both physical and online. We will start with a very exciting real life kick off weekend, in which you will get to know the other participants and you will be invited to plan the remainder of the program.

How can you join?

When you are interested to join this program: Please send an email in English with your motivation to participate before 30 December 2022 to chrisbvervoort@gmail.com or info@rotary-youth.be

Make New Friends in Europe is initiated and sponsored by Rotary International. For you, as a participant, the cost of the program will be limited to an administration fee of €50 and travel cost (which will be shared as much as possible). The Rotary Clubs involved will bear the other cost of the full program.

The **Make New Friends in Europe** was developed based on a successful pilot that ran in 2021 and 2022....
